HAWK EYE

FRIENDSHIP.

Friendship is as holy charm that may

have celestial origin. It is bestowed upon

us—or the faculty for its exercise is an en-

dowment from our Great Creator to cheer

the heart and promote the great interest of

the human family.

It is limited by particular circumstances

like a rare exotic, it blooms in princely

halls sending pleasure throughout the

glittering realm of costly unguineity, and

is often found even and true among the

poor and uneducated. An immutable

principle exists in the laws of nature, that

any body or system of bodies can attract only

as it is itself attracted and the physiognomy

has conclusive evidence of this truth in his

own observation. How pleasant are the

smiles of kindly greeting, as enjoyed by

those who can appreciate the delicate

tributes of mutual regard. Solitude may be

sweet to the weary and weary, yet we

constantly deprived of the privileges of

society, we could soon adopt the language

of the exile when he exclaims: "O! solitude,

where we see the elements that others may

see in thy face, I'd rather dwell in the

haunt of solitudes than to reign in this horrible

place. Man is not only a reading animal

enjoying the sediments of others as ex-

pressed in written language but a species of

individually characterized every member of

the great internity. Respect sympathy and

gratitude combined from the bright links in

the golden chain of friendship.

Brothers cordially invited.

fort Commaultery, No. 4, will be held on

The People and the Public Schools.

Editor Roundabout:

The suit now pending in the Franklin

Circuit Court, in which the Trustees of the

Frankfort City School are plaintiffs and the

Auditor is defendant, is of vital importance,

not only to the people but to the defendant

also.

As long as it is pending it places the

Auditor in a very embarrassing attitude. If

the plaintiffs are right they can get \$15,000 to

\$100,000 a year of the public taxes are

illegally applied, and the schools of Ken-

tucky unjustly deprived of that amount

annually, as well as the \$271,000 for which

this suit is instituted.

If the plaintiffs are wrong the suit should

be dismissed in order that the people may

look to other sources of revenue for the

public schools.

Delay will benefit no one. It is but

proper that the lower court should dispose

of this case in some way in order that it

may go to the Court of Appeals as soon as

possible.

If the people are entitled to this fund to

educate their children they ought to have it

in spite of the "law" delay. There is no

way to evade or dodge the question. It

must be determined sooner or later and the

sooner the better to drive literacy from the

State.

George Bancroft, Mayville, Ky., writes:

Brown's Iron Bitters completely cured him

of continual heartburn.

Something About Water.

Editor Roundabout:

There is something vitally wrong in the

system of administering the water-works of

Frankfort. The demand when the city of

Frankfort, is its organized capacity, through

its appointed officers, makes upon the citizen

upon many occasions, to pay for what it

does not furnish him—to pay something

for nothing—is simply an organized rant

upon his purse.

We may say it is an old custom—we may

say the fathers did it, so do we—but that

does not justify the act.

If a citizen were to enter the store of

another, and with pistol drawn, demand

that he furnish goods without compensation,

he has no doubt demand it, but what

business and the community would be outraged.

But when the City of Frankfort, repre-

sented in its appointed officer, and unauthor-

ized by its solemn Council, appear before a

citizen and demand that he pay for what it

did not furnish, it is about time the moral

sense of the community be aroused to the

equity of the act, and some steps be

taken for proper relief.

The City of Frankfort claims to be a per-

sonage, in a corporate sense, of some char-

acter. It goes before the world, asserting

considerable dignity and authority in matters

of right and justice.

When a poor show of defense, therefore,

can it make when its pride is punctured with

the needle of conviction which must elicit

the confession that it is receiving money

from its own citizens under fear of a threat—

the threat that unless they timely submit to

the extortion, they can get no more water

in any quantity—great or less.

The Constitution of the United States

says no private property shall be taken for

public use without just compensation. The

Constitution of Kentucky echoes this unad-

mitted law of equality of ownership.

Money is property, and the City of Frank-

fort, through its municipal organization, it

takes money from its citizens for water it

does not furnish, nor claim to furnish.

It is wrong the right—

1. To demand money for water it does

not furnish during the dry season, though its

own inadequate supply of resources

2. To demand money for water from

hydraulic not in use or officially shut off

entirely closed, and from whom the citizen

cannot draw water if he wished—no deman-

ding being made for the time such hydrants

remain closed.

## FRANKFORT ROUNDABOUT.

Entered at the post-office at Frankfort, Kentucky as second class matter.

Editor and Publisher.

FRANKFORT, NOVEMBER 10, 1883.

Please bear in mind that the blue pencil mark X on your paper indicates that the time for which you have paid has expired and you are requested to call around and settle.

The new City Hall is rapidly approaching completion. The work on the Opera House portion of it is nearly finished, with the exception of the decoration of the walls and ceiling and painting of the scenery.

Would it not be a good idea for some of our tobacco planters to attend the Scott County Tobacco Fair, which takes place next month, and show the people of that section what we can do in the way of raising the weed? The tobacco raised in this county will compare favorably with the product of any other county in the State.

In order to revive business tour or five of our business houses are offering prices to their customers, which will be distributed the 31st of December. As the Exposition closes today and the cheap rates on the railroad will be discontinued, our people will buy more at home hereafter and business will look up, especially as the great inducements are offered.

Little Harry Todd, infant son of Capt. Sanford Gold and wife, died at the residence of his parents, in this city Wednesday night, aged 14 months. This is the third time within the last four years that these afflicted parents have been called upon to mourn the loss of a little one, and are completely crushed by this new sorrow. They have the sympathy of the entire community.

On the first of October the contract for building the foundation of the Government building was awarded to Messrs. Belknap & Dunsen, of Louisville, and they were given ninety days in which to complete the work. Nearly half the limit has now expired and not a lick has been struck by them, and if bad weather sets in, as in all probability it will in a short time, they will not be able to complete the work this winter. A snail's gait is race-horse speed as compared with the pace at which most Government work progresses. Mr. John Haly, of this city, the only other contractor who bid on the work, would have had it completed in the time which has elapsed since the contract was let.

Mr. Wm. Parker, a resident of this city, but who for several months has been taking care of the farm of Mr. Rott. McKee in the Farmdale neighborhood, met with a very serious accident while out there Saturday afternoon. He started into the house and while on the steps stepped down and caught hold of the barrel of a loaded shotgun, which was leaning against the side of the house, for the purpose of taking it in with him, when in raising it up the hammer caught on the edge of the step, slipped off and came down on the cap with sufficient force to fire off the gun. The charge took effect in the fleshy part of his left arm, tearing it considerably, but fortunately not breaking the bone. He was brought to this city and has been under the care of Drs. U. V. Williams and Sam. James, who think he will soon be well again, although a man advanced in years.

The ROUNDABOUT man went to the depot early Thursday morning in company with several ladies, who took the six o'clock train for Louisville, and when the train pulled out he rode upon the platform of one of the cars as far as St. Clair street, where he alighted. Just before the train reached St. Clair street his hat was struck by a hard substance and nearly carried from his head. Thinking that something had dropped upon it from the top of the car he paid no attention to it until he reached the office, when hearing something rattling in the hat he examined it and found a No. 2 shot lodged in the lining and on the side, just above the left ear, was a small hole where it had entered. It may have been an attempt of some enterprising youth to assassinate him with a gun sling or it may have been fired from a target rifle, or perhaps was a stray shot from a gun fired by some person at a distance, but however projected, if it had struck a little lower down it would doubtless have caused considerable pain. Just here we wish to repeat that the shot was in the hat and not in the neck, in substantiation of which the hat and shot can be produced as evidence.

Mr. Buck Keenan has reopened his tobacco show.

For SALE—An office desk, good as new. Apply at this office.

Mr. John A. Kleber, the South Side confectioner, has fallen heir to an estate of eight or ten thousand dollars.

The W. C. T. U. will meet in the lecture room of the Christian Church Wednesday afternoon, November 14th, at 3 o'clock.

The hunters are becoming so troublesome to farmers residing within four or five miles of the city that most of them are posting their land.

Rev. Wm. Torrance, of Franklin, Indiana, has declined the call recently tendered him by the congregation of the Presbyterian Church in this city to become their pastor.

Miss Jennie Hendrick gave a dinner Wednesday afternoon, in honor of her guests, Messrs. Barr and Blakenore, of Louisville, and Mrs. R. A. Waller, of Chicago, which was attended by a select company of friends, who enjoyed the occasion very much.

Mr. John M. Banta having completed the repairs upon his building at the corner of St. Clair and Broadway, known as the Cheap John corner, has removed his green grocery from the Old Mansion House corner to it. He has had the room neatly and conveniently fitted up and it has a much more cozy and inviting appearance than the old stand, and he will keep constantly on hand a full line of vegetables, fruits, fish, oysters in bulk and in cans, and game, and he invites all his old friends to call and see him.

Gip Clay, a colored deckhand on the Fannie Freeze, fell overboard, near the Mouth of Elkhorn, and was drowned on the trip up Friday afternoon. He was not missed until the boat reached the Lock below this city, and it was not ascertained certainly that he was drowned until the boat returned Saturday afternoon when his dead body was found.

LATER.—It now appears that he had a difficulty with Sam. Johnson, another colored hand on the boat, and was knocked overboard by a lump of coal. A warrant was sworn out for the arrest of Johnson, after the Freeze left here Wednesday morning, and sent to Louisville, where he was taken in charge by an officer as soon as the boat arrived and brought to this city Thursday night.

## HIS OWN EXECUTOR.

A Well-known Gentleman's Philanthropy and the Commotion Caused by One of His Letters.

(Rechercher Democrat and Chronicle.)

We published in our local columns yesterday morning a significant letter from a gentleman known personally or by reputation to nearly every person in the land. We have received a number of letters protesting against the use of our columns for such "palpable frauds and misrepresentations," therefore, to confirm beyond a doubt the authenticity of the letter, and the genuineness of its sentiments, a reporter of this paper was commissioned to ascertain all the possible facts in the matter. Accordingly he visited Clinton Springs, saw the author of the letter, and with the following result:

Dr. Henry Foster, the gentleman in question, is 62 or 63 years of age and has an extremely cordial nature. He presides as superintendent over the celebrated sanatorium which accommodates over 500 guests and is unquestionably the leading health resort of the country. Several years ago this benevolent man wisely determined to be his own executor; and, therefore, turned over this magnificent property worth \$300,000, as a free gift to a board of trustees, representing the principal evangelical denominations. Among the trustees are Bishop A. C. Cox, Protestant Episcopal, Buffalo; Bishop Matthew Simpson, Presbyterian, Methodist, Episcopal; President M. B. Anderson, of the University of Rochester; Rev. Dr. Clark, Secretary of the A. B. C. F. M., Boston. The benevolent purpose of the institution is the cure of—of example, miseries and their families whose health has been broken in their work. 21—of ministers, of any denomination, in good standing, 31—of members of any church who otherwise would be unable to secure such care and treatment. The current expenses of the institution are met by the receipt from the hundreds of distinguished and wealthy people who every year crowd its numerous capacity. Here come men and women who were once in perfect health, but neglected the first symptoms of disease. The mercantile points they left at first, were overlooked until their health became impaired. They little realized the danger before them, nor how alarming even trifling ailments might prove. They constitute all classes, including ministers and laymen, judges, statesmen, illustrators, journalists, college professors and officials from all parts of the land.

Drawing the morning *Democrat and Chronicle* from his pocket, the reporter remarked, "Doctor, that letter of yours has created a good deal of talk, and many of our readers have questioned its authenticity."

"To what do you refer?" remarked the doctor.

"Have you not seen the paper?"

"Yes, but I have not had time to read it yet."

The reporter there upon showed him the letter, which was as follows:

CLIFTON SPRING SANITARIUM CO., CLIFTON SPRING, N. Y., Oct. 11, 1883. DEAR SIR: I am using Warner's Safe Cure, and I need it as the best remedy for some forms of kidney disease that we have. I am wrestling with great ease some cases I am now treating with it, and I hope for favorable results.

I wish you might come down yourself, as I would like very much to talk with you about your sterling remedy and show you our own institution.

Yours truly,

(Signed) HENRY FOSTER, M. D. "I do not see why anybody should be skeptical concerning that letter," remarked the doctor.

"It is unusual for a physician of your standing and influence to commend a proprietary preparation?"

"I don't know how it may be with others, but in this institution we allow no person to dictate to us what we shall use. Our purpose is to cure the sick, and for that work we use nothing we know to be valuable. Because I know Warner's Safe Cure is a very valuable preparation, I commend it. As its power is manifested under my use, so shall I add to the completeness of my commendation."

"Have you ever analyzed it, doctor?"

"We have analyzed before we sent any preparation of which we do not know the constituents. But analysis, you know, only gives the elements; it does not give the all important proportions. The remarkable power of Warner's Safe Cure undoubtedly consists in the proportions according to which its elements are mixed." We there may be a thousand remedies made of the same elements, unless they are put together in proper proportions, they are worthless as kidney and liver preparations.

"I hope some day to meet Mr. Warner personally and extend fuller congratulations to him at the excellence of his preparation. I have heard much of him as the founder of the Warner Observatory, and as a man of large benevolence. The repeated high character of the man himself gave assurance to me in the first place that he would not put a remedy upon the market that was not trustworthy, and it was a source of a good deal of gratification to me to find out by actual experiment that the remedy itself justified my impression."

The conclusion reached by Dr. Foster is precisely the same held by Dr. Dio Lewis. Dr. Robert A. Gunn, Esq., Surgeon-General (formerly) and proves beyond a doubt the great efficacy of the remedy which has awakened so much attention in the land and rescued so many men, women and children from disease and death.

George P. Albert, Louisville, says: "I have had dyspepsia for three years, and could find no relief until I used Brown's Iron Bitters."

Corn in full blast. The yield is fair.

Mr. Wm. French, Simpsonville, visited the family of Mr. Wm. Seaden recently.

Rev. L. H. Salin, of Owen county, was the guest of Mr. and Mrs. J. W. Jenkins.

Miss Nora Hayne, of Lawrence, Kansas, was the guest of Miss Bettie McWilliams last week.

The sale of Dr. W. Lee Crutcher last Tuesday was well attended, and the articles offered brought very fair prices.

The protracted meeting at South Benson Church, conducted by the pastor, Rev. W. T. Llewellyn, is increasing in interest. No additions as yet.

Mrs. Rosa Jenkins has returned home from Shelby county, where she has been in attendance at the bedside and funeral of her niece, Rosa Hiett.

Died—At the residence of her parents, in Jacksonsville, Shelby county, Miss Rosa Hiett, in the twenty-fourth year of her age. Ordinary notice next week.

Rev. L. H. Salin has closed his meeting at Gretnach with seven additions. Very large congregations in attendance each night and the interest remained unabated to the end.

Mr. Fountain F. Hayden, we are sorry to say, continues very ill.

Robert Howard moved with his family to Carroll county this week.

Behold how pleasant it is for people to dwell together in peace. Stop that anti-life life, or we will tell all about it.

If this wholesale slaughter of rabbits and birds continues for ten days more, there will not be one left to tell the tale. Give them a rest.

Mrs. Arnold, the venerable mother of Capt. Milton Arnold, and the Misses Wallace, Misses Julia and Lizzie, were the guests of Mrs. D. Glanton one day this week.

Mr. Byron Scantland is negotiating for property in our town, with the intention, we understand, of engaging in the grocery and dry goods business.

Well we are afflicted with dades in this neighborhood, and for one we are in favor of exterminating them at once. Let's stop to the house and the dade business any way, and go to work.

Volney Foote, at Daily saloon, opposite Capital, is the loss soap maker. One dish don't give satisfaction, pass your plate and have another is the way Vol. talks to his customers. We have been there and know whereof we speak.

Mr. A. D. Noy, whose marriage to Miss Palmer was announced a few weeks ago, left his young wife with her parents a few days after their marriage and up to this writing has failed to materialize. We hope no serious accident has befallen Mr. Noy, although it is known that he had been dealing pretty extensively in land, timber, &c., besides some transactions in real estate notes with some of our prominent merchants. He is truly an enterprising man.

In Mr. Woodson's notice of Mollie's last communication, in which she paid her respects to him in no very complimentary manner, he speaks of her as that man, manliness, &c., about him, and come out of his old and used him (Mr. W.) on a level of manhood, common to all men, &c. Well if this don't raise her ire to a higher pitch than ever we will conclude that she is different from the most of her sex. Feet, for we would like to be in his place and let her get in hailing distance for we should expect to be roughly handled.

### NYPER.

The sales of cattle and horses on the street Monday were lively, as were also horse swaps.

"Grant, the only one of the ten convicts who scaled the walls of the Penitentiary several weeks ago who succeeded in getting away, was recaptured in Spencer county and returned to the Penitentiary Wednesday."

In no way can disease be so surely prevented as by keeping the system in perfect condition. BROWN'S IRON BITTERS ensures perfect health through the changing seasons; it disarms the danger from impure water and miasmatic air, and it prevents Consumption, Kidney and Liver Disease, &c.

H. S. Berlin, Esq., of the well-known firm of H. S. Berlin & Co., Attorneys, Le Droit Building, Washington, D. C., writes, Dec. 5th, 1881:

Gentlemen: I take pleasure in stating that I have used Brown's Iron Bitters for malaria and nervous troubles, caused by overwork, with excellent results.

Beware of imitations. Ask for BROWN'S IRON BITTERS, and insist on having it. Don't be imposed on with something recommended as "just as good." The genuine is made only by the Brown Chemical Co., Baltimore, Md.
